

"Environmental risks in Medellin - an international workshop"

June 18th, 09:00 – 13:30, Building 1.0, Room Vortragssaal links

Time	Presenter		Title
9:00	Andrea Müller	UFZ	Introduction
9:15	Carmen Elena Zapata Sanchez	Universidad Nacional de Colombia, Medellin	Control of air quality in Medellin, Columbia
9:45	Martin von Bergen	UFZ	From epidemiological Metabolomics to in vitro models
10:00	Uwe Schlink	UFZ	Environmental Risks and Vulnerability of the Integrated Project Urban Transformation
10:15	Victoria Osterloh	UFZ	Climate and circulation patterns of Western Colombia (incl. analysis of meteorological data Medellin)
11:00	Shiva Nagendra	IIT Madras	Air pollution, climate change and health impacts "Indian context"
10:30	Uwe Schlink	UFZ	Urban environment (air quality, heat) and personal exposure and health
10:45	Abdelrhman Mahmoud Shaaban	Cairo	Micrometeorological studies of urban air in Cairo for the mitigation of and adaptation to climate change (incl. ENVI-met)
11:15	Coffee-Break		
11:30	Juliane Welz	UFZ	Vulnerability and Climate Change in Santiago de Chile - Experiences from CAS and CLAVE projects
11:45	Annegret Kindler	UFZ	Environmental Justice - a study in Berlin
12:00	Ulrich Franck	UFZ	Cardiovascular and respiratory diseases related to multifactorial airborne exposure
12:15	Dirk Wissenbach	UFZ	Comprehensive Screening and targeted approaches in epidemiological studies and in vitro models
12:30	Andrea Müller	UFZ	Risk analyses of airborne particulate matter
12:45			Final discussion
