

Peer Reviewed Articles

2014

Willrodt C., David C., Cornelissen S., Bühler B., Julsing M. K. and Schmid A. (2014)
Engineering the productivity of recombinant *Escherichia coli* for limonene formation from glycerol in minimal media.
Biotechnology Journal, **9**(8):1000–1012, [DOI-Link](#)

2011

Schrewe M., Magnusson A., **Willrodt C.**, Bühler B. and Schmid A. (2011)
Kinetic analysis of terminal and unactivated C-H bond oxyfunctionalization in fatty acid methyl esters by monooxygenase-based whole-cell biocatalysis.
Advanced Synthesis and Catalysis, **353**:3485 – 3495, [DOI-Link](#)
